

NISSAN

QASHQAI

INTELLIGENCE is beautiful, and the smart sophisticated redesign of the ultimate urban crossover proves it. New Nissan QASHQAI combines stunning looks with efficient aerodynamics to help you enjoy enlightened city driving **AT ITS BEST.**

THINK IN SYNC.

MOVE INTO A NEW ERA WITH THE ALL NEW NISSAN QASHQAI

IT SPEARHEADED A REVOLUTION and now it's back. With a more powerful, bold new design, the all-new Nissan QASHQAI is the agile urban crossover created to take on the city. Take on the city? The intensity of the all-new Nissan QASHQAI means you can take on the world in style.

PURITY IN PURPOSE

A DRAMATIC REINVENTION

BOLD, ATHLETIC AND COMMANDING ALL ROUND. An explosion of innovation. It's the intelligent new urban triathlete with looks to match. Razor sharp and more predatory than ever, with a proudly provocative, aerodynamic profile, the all-new Nissan QASHQAI makes a powerful statement wherever it goes: The original crossover is back like never before.

ENVELOPING OPULENCE

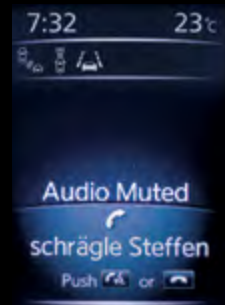

MAKE A LASTING IMPRESSION

FIRST CLASS TRAVEL IS WHAT YOU DESERVE – and what you get every time you step inside the all-new Nissan QASHQAI. The graphite leather interior grips you firmly with its spinal support seats and cushioned kneepads, while ambient lighting enhances the feeling of luxury and comfort. Now the journey really is the destination.

Features mentioned above are available on selected models.

NISSAN ADVANCED DRIVE-ASSIST DISPLAY
**MORE ACTION
LESS DISTRACTION.**

New Nissan QASHQAI's Advanced Drive-Assist Display puts all your info right in front of you - just toggle between the screens using the steering wheel controls. Easy.

DRIVE MORE LIKE A PRO

WIN CONFIDENCE, OWN THE ROAD.

CONFIDENT COMPOSURE with the Nissan QASHQAI's chassis control functions to back you up. Nissan's chassis control functions deliver responsive and engaging handling, while delivering a smoother ride experience.

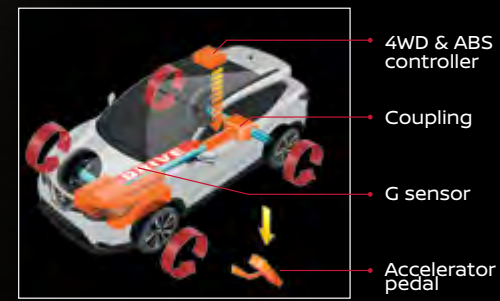

CHASSIS CONTROL functions are displayed on your Advanced Drive-Assist display; Active Traction Control and Active Engine Brake when cornering, and Active Ride Control when brake control is activated. It keeps you where you want to be: in command.

ACTIVE ENGINE BRAKE (CVT models only) adds subtle engine brake to decelerate the car at corners to reduce workload of adjusting speed with braking and to ease cornering.

ACTIVE RIDE CONTROL apply subtle brakes to restrain uncomfortable upper body motion and enhance ride comfort.

ALL MODE 4x4-i: maximises tyre traction off-road or on-road. Using a computer and sensors, the intelligent system measures wheel slip and instantly distributes torque, with up to 50% to the rear wheels. It will also move the torque left and right to maximise traction.

NISSAN PURE DRIVE TECHNOLOGY

MAXIMIZE YOUR PERFORMANCE.

SELECT A POWER TRAIN TO SUIT YOU: diesel, petrol, 2WD, 4WD, manual or XTRONIC CVT. You'll benefit from the dynamic performance of Nissan's PURE DRIVE technologies and the lowest CO₂ emissions in the crossover category, thanks to our efficient diesel powertrain range (1.6dCi 2WD & 4WD, MT), also enabled by idle start/stop function and active aerodynamics.

DIESEL	AXLE	TRANSMISSION	Output (kW)	Torque (Nm)
1.6dCi	2WD	6MT	96	320
	4WD	6MT	96	320

PETROL	AXLE	TRANSMISSION	Output (kW)	Torque (Nm)
1.2T	2WD	6MT	85	190
2.0i	2WD	6MT/XTRONIC CVT	106	200
	4WD	XTRONIC CVT	106	200

NEW XTRONIC TRANSMISSION

The new XTRONIC CVT transmission enhances driving pleasure by providing better acceleration and responsiveness while improving fuel economy.

VERSATILE STORAGE

OPEN A WORLD OF POSSIBILITIES

CARRY WHAT YOU WANT. With rear seatbacks that can fold down in a 60:40 division, the all-new Nissan QASHQAI's flexible seat arrangements enable you to expand the cargo space according to the size of your luggage.

AT YOUR FINGER TIPS. The all-new Nissan QASHQAI's new centre console design offers smart storage to keep all of your everyday items close at hand.

NISSAN SAFETY

FEEL EMPOWERED

DISCOVER A DRIVE THAT'S ALIVE WITH CUTTING EDGE TECHNOLOGIES.

HELPS THE DRIVER TO MAINTAIN COMFORTABLE DRIVING.

Even when a risk has not appeared, Nissan technologies make it easier for the driver to maintain safe driving conditions. Some of these innovations reduce the driver's burden, while others enhance visibility and awareness of the immediate surroundings at night and when parking, for example.

HELPS THE DRIVER TO RECOVER FROM DANGEROUS CONDITIONS TO SAFE DRIVING.

When a risk appears, warnings and automatic countermeasures help the driver avoid it.

HELPS MINIMIZE THE DAMAGE WHEN A COLLISION IS UNAVOIDABLE.

In cases when a crash cannot be avoided, additional Nissan technology helps reduce injuries and damage by activating the brakes, restraining passengers, and applying other measures.

BRAKE ASSIST (BA).

Senses emergency braking and automatically helps to apply maximum braking pressure if needed.

6 AIRBAGS STANDARD.

Dual front, side and curtain SRS airbags will protect the driver and all passengers.

HILL START ASSIST.

Prevents roll-back on an incline and provides secure and easy handling and stress free driving.

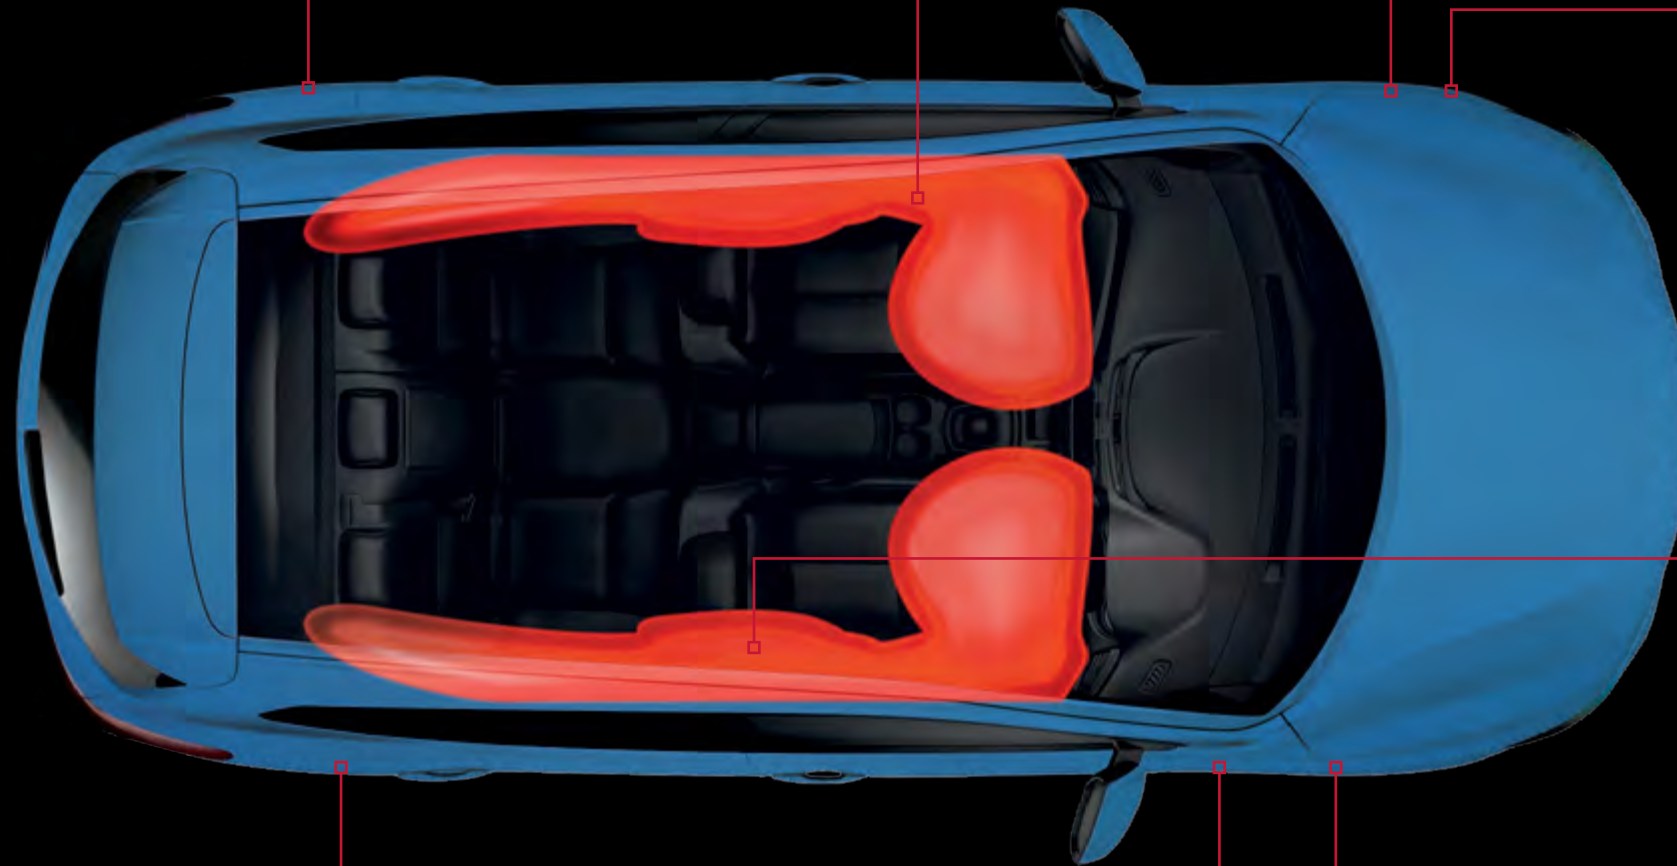

VEHICLE DYNAMIC CONTROL (VDC).

VDC automatically controls brake and engine output to enhance stability when sensors detect that the vehicle might slip sideways due to steering, braking or accelerator pedal operation.

SEAT BELT PRE-TENSIONERS.

Seat belt pre-tensioners on the front seats automatically tighten the seat belts in certain frontal collisions, while load limiters are designed to give a little to absorb the belt force load transmitted to the front occupants.

ELECTRONIC BRAKE FORCE DISTRIBUTION (EBD).

Enhances braking control, to optimise braking performance with loads of various weights.

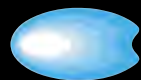

ANTI-LOCK BRAKING SYSTEM (ABS).

In the event of an emergency situation, ABS ensures maximum brake force is applied and maintains control by preventing wheel lock-up.

TRACTION CONTROL SYSTEM (TCS).

To help prevent wheel slip on low friction surfaces, TCS responds by reducing throttle or applying brake pressure to help improve traction.

SAFETY SHIELD

In the commitment to "Real World Safety", Nissan pursues innovation as part of its Safety Shield concept. Based on the idea that cars should help protect people, advanced, proactive safety technologies help driver and passengers to avoid danger and injury in a wide range of circumstances.

- DR & Pas
- Full auto A/C
- Side curtain Airbag
- Auto dimming rear view mirror
- Privacy glass
- Display Audio: AM/FM radio with CD, MP3, USB, AUX with iPod Compatibility
- 6 Speakers
- Silver Roof rails
- 18" Alloy wheels
- Parking sensors (front & Rear)

Nissan's commitment to the environment

Nissan's environmental philosophy embraces people, vehicles and nature. In the pursuit of a sustainable mobile society, the Nissan Green Program aims to reduce the environmental impact of Nissan vehicles at every stage of the vehicle life cycle, while corporate activities address environmental challenges.

Nissan's commitment to quality

To provide all customers with a consistently high level of quality, Nissan applies the same standards worldwide, to ensure that all Nissan owners enjoy peace of mind for the lives of their vehicles. The approach is based on quality from the customer's perspective on three key elements: First, the expectation of a smooth driving experience with complete peace of mind. Second, the intangible appeal of a vehicle, its power to captivate and excite, with features that capture attention and imagination. Third, the level of attentiveness and service during the sales process, and long after the sale is concluded.
